Western Governors University to Offer 100 New Scholarships for Math and Science Teachers

Up to \$4,000 per Student Available from NCATE-Approved Online Teachers College

Salt Lake City — Online, competency-based Western Governors University (www.wgu.edu) has announced a new scholarship program aimed at helping current and aspiring mathematics and science educators advance their careers.

The WGU Mathematics and Science Educators Scholarship is a competitive program. Scholarships will be awarded based upon a candidate's academic record, readiness for online study at WGU, and current competency.

WGU offers bachelor's and master's degrees, as well as post-baccalaureate degrees, in Mathematics and Science Education. The WGU Teachers College is one of the largest providers of online teaching degrees, with graduates who have become licensed in nearly all 50 states.

WGU's Teachers College is designed to meet the needs of adult learners by providing flexible, technology-based instruction. The unique competency-based academic approach makes it possible for students to complete the requirements for their degrees more quickly and accelerate their programs based on their prior experience, academic backgrounds, and time available to study.

For more information or eligibility requirements visit www.wgu.edu/mathscience_educators.
