WGU Makes Military Advanced Education Magazine's Military-Friendly List for Fourth Straight Year

Online University Selected by MAE for Annual Guide to Top Military-Friendly Colleges and Universities

Salt Lake City — Online, non-profit Western Governors University has been selected by Military Advanced Education (MAE) for inclusion in the magazine's Fourth Annual Guide to Top Military-Friendly Colleges & Universities.

"This guide has become an invaluable tool for both Education Service Officers/Specialists and Base Transition Officers when advising their service members about degree and certification opportunities currently available from institutions of higher learning," said MAE Associate Publisher Glenn R. Berlin.

WGU was selected for the guide for the rigor and quality of the university's academics, the advice and support it provides to its students, and the sophistication and effectiveness of its distance education.

Western Governors University offers over 50 online bachelor's and master's degree programs in Business, Teacher Education, Information Technology, and Healthcare Professions, including Nursing.

Military Advanced Education, the Journal of Higher Learning for Today's Service Member, is published for service members and veterans seeking to take advantage of military education benefits.
