The lists of degree candidates in these programs are tentative and based upon the anticipated successful completion of work undertaken. These documents should not be taken as official record that degrees have, in fact, been awarded.

Our Mission

The principal mission of Western Governors University is to improve quality and expand access to post-secondary educational opportunities by providing a means for individuals to learn independent of time or place and to earn competency-based degrees and other credentials that are credible to both academic institutions and employers.

Our Promise

We help our students achieve their dreams for a degree and career success by providing a personal, flexible, and affordable education based on real-world competencies.
